

SUGAR-FREE PRODUCTS WITH
IMPROVED CHARACTERISTICS

ABSTRACT OF THE DISCLOSURE

The invention concerns improved sugar-free products, their production and use, in particular, coated products, their production and use. The products are characterized by their content in enriched mixtures of 1-O- α -D-glucopyranosyl-D-mannitol (1,1-GPM) and 6-O- α -D-glucopyranosyl-D-sorbitol (1,6-GPS).
